SUKESHKRISHNA E

+91 9526957194 sukeshkrishnae2005@gmail.com sukeshkrishna Sukesh2005hub

SKILLS

Programming: Java, JavaScript

Frontend: HTML5, CSS3, JavaScript (ES6), React

Backend: Spring Boot, JDBC, JSP/Servlets, REST API

Database: MySQL

Core: OOP'S, Computer Networks, DBMS

PROJECTS

NOMADIA – AI-Powered Travel Explorer *Sep 2026 – Present*

React, JavaScript, Vite, REST APIs, OpenRouter **Live Demo**

- Developed and deployed a responsive AI-powered travel exploration application using **React, JavaScript, Vite, HTML5, and CSS3** for destination discovery and personalized trip planning.
- Integrated **OpenRouter AI, OpenWeather API, and Nominatim API** for AI travel assistance, real-time weather information, and location-based features.
- Built an AI Travel Planner for structured day-by-day itineraries and implemented **React Router, React Markdown, and browser geolocation**.
- Implemented destination search, regional filtering, destination detail pages, and API error/loading handling; deployed on Vercel using Git/GitHub.

Learning Management System (LMS) *Mar 2026 – May 2026*

ReactJS, JavaScript, Supabase **Live Demo**

- Developed a responsive LMS frontend with separate **Student and Admin portals**, login interfaces, and user/course management functionality.
- Designed **Supabase database tables**, integrated application data, deployed on Vercel, and managed source code using Git/GitHub.

Smart Safety Helmet for Bike Riders *Sep 2025 – Jan 2026*

IoT, Arduino, Embedded C

- Developed an IoT-based safety helmet using **Arduino, GSM, GPS, and sensors** with helmet-wearing, alcohol, accident detection, and emergency SMS alert functionality.
- Worked with **embedded programming, sensor integration, hardware-software interfacing, and real-time IoT communication** as a team project.

EXPERIENCE

Cloud Institution *Feb 2026 – Apr 2026*

Java Full Stack Development Intern

- Developed and tested web applications using **Core Java, JavaScript, ReactJS, MySQL, JDBC, REST APIs**, and CRUD operations.
- Worked with MySQL databases and performed database operations required for web application functionality.
- Created and configured **AWS EC2, S3, VPC, Subnets, and Security Groups** for application and deployment activities.
- Used **Git/GitHub** for version control and **Docker** for containerization; gained practical exposure to Jenkins and basic CI/CD workflows.

EDUCATION

KVG College of Engineering *2022 – 2026*

Bachelor of Engineering – Computer Science and Engineering *Sullia, India*

CGPA: 8.74
